Summer 2009

New Pottery Shipment and New Garden Shop Items

In the past several months, Colesville has taken on a new element of the gardening and landscape world: Container Gardening. The opening of our brand new “Garden Shop” has been a big hit and we are expecting a new shipment of pottery by the end of June. We have kept some favorites styles, but also added a few different colors and sizes.

However, now that we’ve kicked off our Spring season with The Garden Shop, we would now like to hear from you. We’ve started to make a “running list” of items our customers would like us to carry and have been able to find most of the items and sell them regularly. Many of our customers have told us that having the hard goods they use regularly is helpful because they now don’t have to make another stop somewhere else to buy them. That being said, if you do need something that we currently do not carry in The Garden Shop, please let us know and we’ll see what we can do.

NEW SPECIAL SALE SECTION!

We now have a new section in our nursery for special sales and discounts! One of our greenhouses, 1E, is now 20% off and is FULL of plants and trees, such as Japanese Maples, Parson’s Junipers, and Miscanthus Morning Light, just to name a few. Stop in 1E during your next visit to the nursery and get some GREAT deals.

PLANTS IN THE SPOTLIGHT

Lagerstroemia indica (Crapemyrtle)

Our tree of the quarter this Summer is the Crape Myrtle, a great Summer bloomer. Early to mid Summer is also a great time to plant Crape Myrtles. We have a range of sizes on most of our selections. We have a few varieties that are single stem (standard) as well which is a nice twist on the Crape Myrtle in a landscape. Many people also enjoy the Crape Myrtle in the Winter month as well for the tree's beautiful exfoliating bark (as you can see on the right).

See our "Tree of the Month" link on our website for a list of all of the Crape Myrtles that we carry here at Colesville.
