

## CRYPTOMERIAS

NAME	SIZE	RATE	COLOR	FORM	LANDSCAPE USE
Araucaroides	8'		Short, dark green needles	Dense pyramid, narrow snake-like limbs	Accent, resembles a Monkey Puzzle Tree.
Ben Franklin	30-40'	rapid	Deep blue-green needles, no interior dieback. Good green winter color.	Conical & full yet refined branching habit	Salt tolerant, good coastal plain performer. Screening plant.
Black Dragon	5' x 7' @ 10 yrs. (10' x 4-6' eventually)	3-6" per yr.	Extremely dark (black-green), congested foliage. New spring growth is light green.	Broad, upright pyramid, defined formal branching	Ideal for small gardens. Abundant male cones.
Elegans Nana (Elegans Compacta)	3-6' high	slow	Bluish green, tinted purplish in winter.	Flattened, globose, compact, broad mounded.	Good alternative to Mugo Pine for tough sites.
Globosa Nana	2-3' x 2.5-3.5' in 10-15 yrs. May mature 4-8'	slow	Bluish green, rusty red in winter.	Neat, dense, dome-shaped, medium dwarf, slightly pendulous branches.	Excellent choice for rock gardens and for the front of the shrub border. <b>Do not plant in containers.</b>
Hino		Medium, 3-6" per year	Green	Globe-shaped	
Jindai-Sugi	12' x 8' ultimately. 6-8' x 3.5' @ 10 yrs.	6-10" per yr., slow	Light green with no winter bronzing	Upright, compact pyramid shrub with an irregular but rather flattened top and dense foliage.	
Knaptonensis	2' high	slow	Creamy-white variegation. Requires full sun for good color. (Originated as a witches' broom of 'Nana Albospica'.)	Conical with slightly pendulous branches.	Edge of border, accent. Requires some shade.

## CRYPTOMERIAS

NAME	SIZE	RATE	COLOR	FORM	LANDSCAPE USE
Radicans	40-45' x 12'	fast, 12-16' in 5 yrs.	Dark bluish-green in spring & summer; rich purple bronze in winter.	Upright, pyramidal	Privacy screen. Like 'Yoshino' but bluer.
Sekkan-Sugi	20' x 10' ultimately. 10' @ 10 yrs.	fast - 12+" per yr.	Sulfur-yellow foliage darkens to green as it matures.	Large upright, broad tree. Regular ascending branches.	Good screening plant. Requires some shade.
Spiraliter-Falcata	3-5' @ 10 yrs.	3-6" per yr.	Light green needles & branches. Some variegation in full sun.	Narrow branches twist & curve.	Provides maximum interest in a small space; a conversation piece. The Harry Lauder's Walking
Tarheel Blue	30-40' x 12'	fast	Bluer than Ben Franklin and Yoshino. Changes to burgundy in fall.	Conical	Good screening plant.
Yellow Twig	5-6' high	moderately slow	Twig color is yellowish giving the whole plant a golden cast.	Upright beehive-rounded, fine-textured, slightly pendulous branchlets	Mid-sized conifer for modern, urban sites.
Yoshino	30-40'	fast	Rich, bright blue-green summer foliage, slightly bronze-green in cold weather or windy locations.	Conical	Good screening plant. <b>Most cold hardy.</b>
